

## Mission to Vapi (Gujarat)—steam technologies

17<sup>th</sup>–21<sup>st</sup> December 2018 | Vapi (Gujarat)

During this Mission, IGES–TERI conducted walk-through surveys for energy efficient technologies, with particular focus on steam technologies, at a number of industrial plants in Vapi, Gujarat. The team also organized a dissemination workshop on energy efficiency in the steam system and compressed air technology at the Vapi Industries Association.
